# BANANA

Breea Toomey, Caroline Ellis, Denali Tonn,
Dylan Krim, Maddie Mcdowell

Why Banana?

Learning to code can be difficult and overwhelming, but Banana makes developing the fundamentals of coding easy and fun!

Coding in other languages…

VS

Coding in Banana!!

BANANA!

Features

Statically Typed

Object Oriented

Built-in Functions

Loops (For, While)

Complex Array Types

Function Composition

Nesting

Example Program

```
1    pick banana(Int quota, Bunch(Int) bananas-collected) -> Boo:
2        for i in bananas-collected:
3            if i > quota:
4                Plant('👍')|
5            else if i < quota:
6                Plant('👎')
7                serve rotten|
8
9        Plant('Enough bananas collected this week!')
10       serve ripe
11       |
12   |
13
```

The End. 🍌
